Medallion

TJC Credentialing

Key features

Robust primary source verifications (PSVs) with red-flag reviews and expert oversight quality assurance

Automatic, downloadable credentialing packets

Electronic committee management allowing for hierarchical or parallel approvals with built-in email notifications and single-click approve/reject

Reapplication monitoring with proactive email alerts

Provider profile requirements configured to necessary standards & applications

Confirm and manage privileges associated with a credentialing application

Seamless credentialing for compliance and care excellence

Simplify provider credentialing and privileging to meet Joint Commission standards. From primary source verifications to automated committee management, Medallion's JCO Credentialing helps maintain compliance, ensure provider quality, and streamline processes—freeing providers to focus on patient care, not paperwork.
